Bean Seed Germination Graph

Bean Seed Germination Reflection Questions:

1. Describe the shape of your graph. What trends do you notice? What stands out to you about the data?

2. Did you expect your bean to germinate and grow as it did? Why or why not?

3. During which stage of the bean's life cycle did it undergo some of the most extreme changes? Support your answer with evidence and reasoning.

4. Based on what you know about plant life cycles, make a prediction about what will happen if the bean sprout is transferred to a larger pot with soil.
