

High Speeds and Tough Turns

The Super Giant Slalom is said to take the most skill of any ski event. Skiers race down a mountain over a long, steep course at speeds of up to 80 miles per hour. They must go through a series of gates marked by flags.

For each problem, write an answer (in lowest terms) from one of the flags. Color the flag. The fraction will be in lowest terms.

1. $\frac{1}{2} + \frac{1}{3} =$ _____

2. $\frac{2}{4} - \frac{1}{5} =$ _____

3. $\frac{3}{10} - \frac{1}{5} =$ _____

4. $\frac{5}{9} + \frac{2}{3} =$ _____

5. $\frac{15}{4} + \frac{24}{10} =$ _____

6. $\frac{3}{7} + \frac{2}{6} =$ _____

7. $2\frac{4}{5} - \frac{2}{3} =$ _____

8. $\frac{9}{5} + \frac{3}{7} =$ _____

9. $5\frac{3}{4} + 6\frac{1}{3} =$ _____

10. $\frac{9}{10} - \frac{3}{4} =$ _____

11. $\frac{2}{9} + \frac{3}{7} =$ _____

12. $\frac{18}{21} - \frac{4}{7} =$ _____
