

# The Swamp's Strongest Lifters

It's time for the weightlifting contest in Hokee Penokee Swamp. The swamp critters lift the biggest rocks they can find.

Even the smallest creatures want to be in the contest. Tiny Lucy Ladybug can lift  $\frac{6}{10}$  of a kilogram!

Circle the correct answer for each problem.

- Which fraction is equivalent to the weight of frog's rock?
  - $\frac{3}{6}$  kilogram
  - $\frac{1}{2}$  kilogram
  - $\frac{2}{8}$  kilogram
  - $\frac{2}{5}$  kilogram
- Which animals are holding the same amount of weight?
  - ladybug and turtle
  - alligator and frog
  - mouse and beaver
  - no two animals
- Which fraction is equivalent to the weight of beaver's rock?
  - $\frac{14}{18}$  kilogram
  - $\frac{1}{2}$  kilogram
  - $\frac{2}{3}$  kilogram
  - $\frac{3}{4}$  kilogram
- Which animal's rock is equivalent to  $\frac{8}{16}$  kilogram?
  - frog
  - mouse
  - turtle
  - alligator
- Which fraction is equivalent to the weight of ladybug's rock?
  - $\frac{3}{4}$  kilogram
  - $\frac{1}{2}$  kilogram
  - $\frac{3}{5}$  kilogram
  - $\frac{2}{3}$  kilogram
- Which animal's rock is equivalent to  $\frac{8}{10}$  kilogram?
  - ladybug
  - beaver
  - turtle
  - alligator
